When an educated guess isn't good enough.

Whenever there's a question about the value of your personal property, there's also a risk involved. It may be the risk of selling too low, or of paying too much; the risk of being under or over insured; the risk of not getting your fair share in a division of the property; the risk of incurring tax penalties or being audited.

A professional appraiser helps you manage these and other such risks by providing a written opinion of value upon which you can base your financial decisions. And at ISA, you can find the most skilled Personal Property Appraiser for your needs.

Whether you are searching for an appraiser of antiques, jewelry, art, automobiles, furniture or an entire estate, there is an ISA appraiser to fill your needs. Our qualified professional appraisers have expertise in all types of appraisals and appraisal-related services including estate tax appraisals, insurance damage claims, estate liquidations, estate probate, business valuations, and more. With ISA, you can manage risk and rest assured in the accuracy of your appraisals.
